

SIGIT KURNIAWAN

Bengkalis, Riau, Indonesia • +62 813-4970-4315 • sigitkurniawan1052@gmail.com

[GitHub](#) [LinkedIn](#)

Software Engineering graduate (GPA 3.88/4.00, top student in Informatics Engineering) with hands-on experience building production web applications using the Laravel framework. Skilled across the full software development lifecycle—from requirement specification through testing and CI/CD deployment. Seeking a Backend / Web Developer role to deliver reliable, well-engineered web solutions.

EDUCATION

Bengkalis State Polytechnic

Diploma 4 (Bachelor), Software Engineering — GPA: 3.88 / 4.00

Bengkalis, Riau

Aug 2020 – Oct 2024

- Recognized as one of the top-performing students in the Informatics Engineering department.
- Scored 830 on the TOEIC English Proficiency Test.

EXPERIENCE

PT. Garuda Cyber Indonesia

Software Engineer Intern — MSIB Certified Internship (Ministry of Education)

Pekanbaru, Riau

Feb 2024 – Jun 2024

- Engineered a leadership meeting-scheduling web application end-to-end, from software requirement specification through black-box testing.
- Deployed the application to a virtual private server by implementing a CI/CD pipeline with GitHub.
- Recognized as the most disciplined intern company-wide, earning a perfect behavior score of 100/100.

Bangkit Academy (led by Google, Tokopedia, Gojek & Traveloka)

Mobile Development Cohort — Ministry of Education Certified Program

Remote

Feb 2023 – Jul 2023

- Graduated with a final score of 91.78.
- Built Android applications applying the MVVM architecture and validated them through structured testing.
- Collaborated on a team capstone project developing an Android-based machine learning application.

PROJECTS

Company Meeting Scheduling System

Laravel Web Application — PT. Garuda Cyber Indonesia

Pekanbaru, Riau

Feb 2024 – Jun 2024

- Developed a web platform that streamlines the scheduling of internal company meetings.
- Built the system on Laravel 10, integrating multiple third-party libraries.
- Partnered directly with company staff across planning, development, testing, and deployment.

School Admission (PPDB) Website

Laravel Web Application — Tahfidz Qur'an Al-Fatih Foundation

Bengkalis, Riau

Nov 2023 – Dec 2023

- Developed a web application enabling parents to register their children for school admission online.
- Built the system on Laravel 10 with supporting third-party libraries.
- Worked closely with the school principal through planning, development, and testing stages.

LEADERSHIP & ACTIVITIES

Gemastik XVI — National Student ICT Competition

Team Leader

Game Development Division

Oct 2022 – Nov 2022

- Led a team to design and build a prototype RPG game featuring interactive mechanics in Unity.
- Coordinated team members and project timeline while directing level design.
